Daily Counting:

- Practice counting to with your student. Start by asking students to count as high

as they can. From there set a goal of counting ten more next ten for the week.

Practice counting daily.

- Skip counting. Practice counting by 2s, 5s, 10s, 100s. For a challenge start with a number other than 0. Example count by 2s starting with 22 or 21.

Addition and Subtraction Fact Fluency:

- Help your student build fact fluency. Using flash cards or strips of paper write addition or subtraction facts for one number family each week. Example week 10s. $0+0=0$, $0+1=1$, $0+2=2$. Each week move on to a different number. Write the number sentence on the front of the card ($0+4=$) and the answer on the back (4). Time your students to see how quickly they can answer these facts.
